

TOUCHE

PROMOTER PROGRAMME

Earn by introducing people to Touche. There is no cost to join, no stock to carry and no invoicing - just a personal link, a transparent dashboard and monthly EFT payments once you reach R250.

HOW IT WORKS

1 — Apply and get approved

Submit a short application with your name, username, contact details and where you plan to promote Touche. Every application is reviewed manually, usually within a few working days.

2 — Share your unique link

Once approved you receive a personal link in the format `touche.center/r/YOURCODE`. Every click is recorded anonymously against your promoter account.

3 — Earn per qualified referral

When someone signs up through your link and completes the qualifying action, the referral becomes qualified and your commission is added to your unpaid earnings.

4 — Get paid

Earnings are grouped into monthly periods. Once your unpaid balance reaches R250 it is scheduled for the next monthly payment date and paid out by manual EFT.

HOW EARNINGS ARE CALCULATED

- Commission per qualified referral is published on your promoter dashboard and can change over time.
- Qualified referrals are grouped into a monthly period on the published payment day.
- Your unpaid balance is the sum of all qualified, unpaid periods plus any admin adjustments.
- Reaching R250 unlocks payment on the next payment date; anything below carries over.

PROGRAMME RULES

1. You must have an active Touche account and be 18 or older to join the programme.
2. Commission is only paid on referrals that reach the published qualifying action - clicks and unqualified signups earn nothing.
3. Self-referrals, duplicate accounts, bots, incentivised clicks and paid search on the Touche brand name are not allowed and are reversed.
4. The minimum payout is R250. Balances below the threshold carry over to the following month.
5. Payments are made manually by EFT on the published monthly payment day. Touche does not operate an in-app wallet.
6. Referral data is shown in a privacy-safe form - you never see the identity, contact details or location of the people you refer.
7. Touche may adjust commission rates, the qualifying action or the payout threshold. Changes apply to referrals recorded after the change.
8. Misleading claims, spam, or promotion to under-18 audiences result in removal from the programme and forfeiture of unpaid earnings.

WHERE YOU CAN PROMOTE

- Instagram stories, reels and link-in-bio
- TikTok captions and bio links
- X / Twitter threads
- YouTube descriptions
- WhatsApp broadcast lists and groups you own
- Blogs, newsletters and personal websites

Always disclose that your link is a referral link, and never promote Touche to audiences under 18.
